## DEF exhibit at MATS helps users get ready

Leading diesel exhaust fluid (DEF) infrastructure suppliers, including DEF producers, distributors and dispensing equipment manufacturers, have joined forces to showcase DEF suppliers and support services. The showcase is part of an educational display at the Mid-America Trucking Show this week. The exhibit will also mark the launch of a new online DEF locator ([www.factsaboutscr.com](http://www.factsaboutscr.com)) that will provide DEF supply and availability information to drivers anytime and any-

where they are in North America.

Show attendees are invited to stop by the booth (#30195) to get more information for the following suppliers: Airgas Inc., Auclerus LLC, Balcrank, Brenntag North America, Colder Products Co., Kost USA, Mauser Corp., Spatco

DEF Dispensing Systems, Terra Environmental Technologies and Yara.
