**Centers to Install SPATCO™ DEF Dispensing Systems
at an Additional 24 Retail Truck Stop Locations.**

Charlotte, NC – May 7, 2010 -- Pilot Travel Centers, LLC has purchased an additional 24 DEF Dispensing Systems from manufacturer SPATCO™ DEF Corporation. The additional locations are scheduled for installation by early Q4 2010. This will give Pilot nearly 75 truck stops with DEF available for bulk retail dispensing, using SPATCO™ DEF Dispensing Equipment.

Pilot Travel Centers, the largest interstate travel center operation in the nation, is known for being a pioneer and leader in the trucking industry. They were the first truck stop in the United States to provide DEF from a retail dispenser.

“We decided to purchase the additional systems from SPATCO based on the quality of their equipment, their ability to meet our delivery schedule, and the ease of use we have experienced with their product”, Catherine Adkins, senior project manager, Pilot Travel Centers.

SPATCO™ DEF Retail Dispensing systems are available with 525, 1000, or 2000 gallon DEF tanks and are compatible with retail DEF dispensers by Dresser Wayne, Gilbarco and Bennett.

About SPATCO™ DEF
